

As One Journey Ends, Another Begins:-

Dated back to 23rd January 2021, when I stepped again in my unique beautiful campus but with a call of caution of preventing the spread of former Covid-19. Armed with sanitizer, facemasks, in a queue under the command of social distancing, I was utmost enraptured at the very first sight of my nurturing school. Moving out of monotonous online teaching and disrupted lectures, the day started with a boosted spirit in a traditional way of procuring education where there was not a dicky bird to barge in my concentration. The physical environ, raised a new inspiring voice from my deep heart. Albeit not all the erstwhile jubilation can be experienced due to safety concerns, yet the school life retains its own beauty. Discovering science with practicals, giving disciplined exams, meeting peers maintaining distance and focusing on teachers' interesting lectures made my day the most memorable one, after breaking through the menacing pandemic. Amazed by the dedication and spirit of teaching staff and the authority to once again, start a new journey amidst the Covid-19, shows our valor to accomplish our ambition opposing any challenges. Nevertheless, the phrontisteries all up India are shut down, all young tutees are deprived of the nurturing enlightening "Vidyalayas" yet the education process continues. I proudly tribute my school, my excellence trainers for indulging in me the crucial aspects of life and granting me the most memorable days of my life. This is how One Journey ends, and another begins. Having said that, I wind up my crazy feelings and thus I wait for school recommencing, which would help me to enjoy experiencing my beautiful life, carrying ahead deep experiences and getting inspired at every life stage.
